Quanergy to Exhibit 3D LiDAR Solutions at Security Essen

SUNNYVALE, Calif. – Sept. 19, 2022 – Representatives from Quanergy Systems Inc., a leading provider of LiDAR sensors and smart 3D solutions, will be demonstrating the company's 3D LiDAR-based security solutions at [Security Essen](#). One of the world's leading security trade shows, the event will be held in Essen, Germany from Sept. 20-23, 2022.

Quanergy's 3D-powered LiDAR solutions increase efficiency in response to security breaches and drastically reduces costly false alarms. At the show, the representatives from the company will demonstrate how their portfolio provides accurate detection, tracking and classification of intruders and integration with PTZ cameras and video management systems to pinpoint the location of potential threats and optimize the necessary security resources. The 2D 360° M1 Edge series, which creates long range virtual walls or planes and the 3D 360° MQ-8 series used in conjunction with Quanergy's QORTEX™ perception software to provide volumetric detection with precise tracking, will be showcased during the event.

Thomas Napora, Managing Director for EMEA, Quanergy, said: "We're delighted to exhibit at the Security 2022 show in Essen and demonstrate how our advanced LiDAR solutions can provide high-security protection (both indoor and outdoor), adapt easily to uneven ground, and classify the type of object. This is a great opportunity for our EMEA-based and global technical, sales and management teams to meet with system integrators, installers, channel and technology partners – and discuss security and flow applications for smart spaces."

Where: Booth #5B14, Convention Center Essen, Grugahalle, Germany.

When: Sept. 20-22, 2022 from 9 am- 6 pm; Sept. 23 from 9 am – 4 pm
